POWER BEAUTY SINCE 1902

Dating back to the brand's creation in 1902, the Helena Rubinstein commitment is still apparent in its present-day philosophy "Power Beauty": 110 years of anti-ageing skincare expertise at the service of the most demanding women.

Both a scientist and an aesthete, Helena Rubinstein traveled the world to meet the most forward-thinking scientists of her time. Her research lies at the heart of the 20th century's major cosmetic success stories: the first automatic mascara in a tube, the first waterproof mascara. She invented the first beauty salon, advice at points of sale and treatments targeted by skin type.

Today, Helena Rubinstein offers every woman the most concentrated star ingredients and the most sumptuous textures for immediate long term results at the level of aesthetic medicine.

Helena Rubinstein always centered her advice on women's expectations (personalized diagnosis, active listening, global approach) to offer global skincare and make-up solutions.

AUDACITY AND PASSION

Melbourne, Australia, 1902: the legendary brand was born here and named after its intrepid creator, Helena Rubinstein.

This petite, 4'8" Polish woman - ever perched on sky-high heels - had emigrated there alone at age 24, to escape a marriage arranged by her parents. She was afraid of nothing and had endless energy and intelligence to spare. Most importantly, when she was just a girl, this eldest of eight daughters learned how to organize, supervise and understand women.

Better yet, she knew all about beauty products: every evening before bed, Helena's mother treated her daughters' faces with a special cream made by chemists who were friends of the family, to protect the girls' fragile skin from the bitter cold. Naturally, when Helena left for the new world, her mother packed twelve little jars of the cream in her case. When Helena saw how the heat and drought ravaged Australian ladies' faces, she came up with the idea to sell her cream.

Once the local women tried it, Helena Rubinstein was a hit. After a few years tinkering with the formula, she opened her first beauty salon in Melbourne, where she did beauty treatments and sold her "Valaze" cream, which was a runaway success with chic young ladies from all over Australia.

The visionary Helena Rubinstein understood how important communication is to women and used mail-order sales to promote her brand.

LIFE PEARL CELLULAR

THE ESSENCE OF PERFECTION

The Helena Rubinstein laboratories have decoded the secret of the Royal Black Pearl: giving birth, layer by layer, to ultimate perfection in terms of luster, surface, shape and density. Inspired by this jewel of nature, they have developed Life Pearl Cellular Essence to recreate skin as perfect as a pure pearl.

ESSENTIAL POINTS TO REMEMBER

Complete anti-ageing care – deep nutrition to fight against the visible signs of ageing: sagging, loss of density, deep wrinkles, dry skin and uneven complexion.

A unique technology that offers the skin a true cellular rebirth to fight against the visible effects of ageing (intra cellular and extra cellular actions).

WHO IS IT FOR?

For all demanding women with purchasing power, from 45 years who want skincare that is able to act against the radicalized signs of skin ageing: SAGGING, LOSS OF DENSITY, DEEP WRINKLES, DRY SKIN, UNEVEN COMPLEXION.

FORMULATION SECRET

With age and hormonal imbalances, the life quality of cells is altered. Thanks to its anti-ageing expertise, the Helena Rubinstein laboratories have developed a unique technology that offers the skin a true cellular rebirth to fight against the visible effects of ageing.

From inside, the Cyto-Pearl Elixir™, enriched with micronized pearl extract, reinforces damaged internal cell structure* to promote the cells' quality of life.

From outside, the Life-Bridge Complex reactivates integrins, cells' "life-bridges", throughout three skin layers*, to reconnect them with their vital environment and improve cellular connections.

RESULTS

The ultimate pearl-like perfection: redensified nourished skin, reshaped contours, polished wrinkles, pearlescent brightness.

DIRECTIONS FOR USE

Apply Life Pearl Cellular essence in the morning and evening to the whole face, neck and décolleté, avoiding the eye contour. Recommend Life Pearl Cellular essence with Prodigy cream and eye contour. You can also advice it with Prodigy Extreme cream and eyes & lips (according to your customer's needs).

PRODIGY POWERCELL

The Prodigy franchise, the quintessence of Helena Rubinstein laboratory expertise, is the protagonist in a real scientific challenge: to provide the skin with the vital energy it needs to fight against the effects of time, with high-performance anti-ageing active ingredients. When formulating Prodigy Powercell, Helena Rubinstein laboratories took inspiration from a plant with exceptional survival faculties and have extracted its native vegetal cells, inserting them into the formulas of prodigious skincare.

ESSENTIAL POINTS TO REMEMBER

Prodigy Powercell, a real scientific breakthrough, is a precious treatment for daily repair that stimulates cell renewal giving visible results.

Youth grafter enriched with an exceptional active ingredient: Oceanic Crista.

In addition to spectacular results on the skin in only 5 days, today, we have also proven that a single drop of Prodigy Powercell serum allows to protect the skin against 25 daily different attacks such as day light, tobacco, pollution, wind, stress, etc.

WHO IS IT FOR?

Demanding women from age 30, seeking global anti-ageing care and a serum able to protect her skin against daily aggressions such as day light, tobacco, pollution, stress, etc.

YOUTH GRAFTER

FORMULATION SECRET

NATIVE VEGETAL CELLS OF OCEANIC CRISTA: AN OMNIPOTENT ANTI-AGEING ACTIVE INGREDIENT

Native cells of Oceanic Crista are unique vegetal active ingredients derived from a plant found deep in the ocean. Over centuries, this thousand-year old plant moved onto land. This “life change” drove it to develop incredible faculties of adaptation and survival to resist the hostility of its new natural environment: dryness, light and UV rays.

Native Oceanic Crista cells are a real feat of nature, and have been tested against major anti-ageing active ingredients, and have revealed exceptional properties: tissue repair, cell regeneration and anti-free radical protection.

RESULTS

Skin is protected against 25 youth aggressions. In 5 days, the skin looks renewed. Day after day, the effects include: reduced wrinkles, recreated radiance, fortified skin, anti-free radical protection and 24-hour rehydration.

UNIQUE FEATURE

Each day, the skin is attacked, its natural defences are weakened, wrinkles are more accentuated, skin is less toned, the complexion loses its radiance and becomes dehydrated. Thanks to its survival instinct, it creates new skin cells to regenerate itself. With age, the skin loses its ability to self-regenerate, hence the importance of a youth grafter.

GLOBAL ANTI-AGEING CARE

Visible signs of ageing
From 40 years

THE NEW PRODIGY

It all began in 2002. Taking inspiration from the miracle of nature, Helena Rubinstein laboratories invented Prodigy, the 1st global anti-ageing skincare product. More than a million jars were sold throughout the world, making Prodigy into a legend.

This legend now benefits from an additional decade of scientific progress, revealed in Molecular Bio-Sap™, which is very concentrated in vegetal active ingredients. This new synergy of active ingredients targets the 5 fundamental layers of the skin and for the 1st time, even at the deepest dermis.

ESSENTIAL POINTS TO REMEMBER

Global anti-ageing skincare able to target the 5 fundamental layers of the skin, even at the deepest dermis for a deep skin renewal thanks to the Molecular Bio-Sap™.

Now, Prodigy goes one step further for a deep skin renewal. Skin is firmer, smoother and more radiant.

WHO IS IT FOR?

All women, from 40 years, who want to combat the 5 signs of ageing: wrinkles, loss of firmness and elasticity, uneven complexion, lack of radiance, dehydration.

FORMULATION SECRET

The new Molecular Bio-Sap™ is a unique synergy of 5 supernatural vegetal ingredients which transfuses its vital power all through the 5 fundamental skin layers with an unprecedented action even at the deepest dermis:

- Prevents dermal cellular senescence, i.e.» presses pause” on fibroblasts ageing and degeneration for a prorogated cellular youth.
- Stops collagen glycation, chemical reaction which stiffens the collagen fibres and prevent them from being renewed.

RESULTS

A “youth transfusion” even at the deepest dermis, for a deep skin renewal: intense anti-wrinkle, intense redensification, intense firmness, intense luminosity and intense hydration.

UNIQUE FEATURE

Molecular Bio-Sap™ is stronger, goes deeper and is much more targeted than encapsulated bio-sap. The formula’s polysensoriality (legendary sumptuous texture and the delicate notes of white flowers) that has made the Prodigy legend what it is, has stayed the same.

DEEP WRINKLES, INTENSE DRYNESS, LOSS OF DENSITY

“My wrinkles are very noticeable, my skin is no longer elastic and is losing density. My usual cream is no longer enough. I would like a product to smooth out my face and visibly rejuvenate it.”

TIPS & TECHNIQUES

The skin in the eye contour area and the skin around the lips have the same characteristics. The skin in these zones is thin and constantly solicited during expressions, so lines appear more quickly and are more accentuated than on the rest of the face.

POWER BEAUTY
SINCE 1902

GLOBAL ANTI-AGEING CARE

Radicalised signs of ageing
From 50 years, mature skin

PRODIGY EXTREME

Helena Rubinstein laboratories in association with the famous Laboratoire de Biologie in Liège, known for its work with NASA, have decoded the fundamental role of integrins in the protection of the skin against ageing. Integrins are real “life bridges” which connect the cells to their environment, the extra-cellular matrix. Over time, the activity of the integrins changes, the bridges are broken down and the isolated cells are not able to perform their vital functions.

ESSENTIAL POINTS TO REMEMBER

Global skincare to fight against the visible signs of ageing: deep wrinkles, loss of density, skin dryness, slackening, loss of radiance.

An exclusive complex, Extreme Bio-Sap, reactivates the integrins.

WHO IS IT FOR?

For all demanding women, from 50 years, who want skincare that is able to act against the signs of skin ageing: WRINKLES, LOSS OF DENSITY, SKIN DRYNESS, SLACKENING, LOSS OF RADIANCE.

FORMULATION SECRET

EXTREME BIO-SAP:

1. Native vegetal cells (Sequoia seed extract and Grapevine flower extract). Native vegetal cells stimulate integrin activity* by connecting fibroblasts to the dermal matrix, reactivating collagen, elastin and glycosaminoglycan synthesis.
2. Quintessence of Bio-Sap (Acacia honey, Ruscus, Beech bud extract, Rice peptides and Royal jelly).

RESULTS

Replumped wrinkles, reinforced density, extreme nutrition, facial volumes look reshaped, restored radiance.

UNIQUE FEATURE

WHY USE THE SAME PRODUCT FOR THE EYES AND LIPS?

Because the skin around the eyes has similar features to the skin around the lips: it is thin and constantly solicited during facial expressions. Facial lines in these areas become more quickly accentuated than on the rest of the face.

ANTI-WRINKLE SKINCARE

Anti-ageing hydration
From 30 years

HYDRA COLLAGENIST

Brought into the spotlight by Helena Rubinstein laboratories: the quality of the collagen matrix is essential for good hydration. In the dermis, the skin's water reservoir, water is not "free", but linked to the collagen matrix. Various types of collagen are found in this matrix. Over time, the collagen matrix becomes disorganised and structural molecules diminish. Water becomes more "free". The skin loses its hydration and youthfulness

ESSENTIAL POINTS TO REMEMBER

INTENSE ANTI-AGEING HYDRATION: a great success, inspired by 10 years of expertise in the study of collagen: Hydra Collagenist, intense anti-ageing hydration skincare for skin that is visibly younger.

MAJOR ANTI-AGEING INNOVATION

WHO IS IT FOR?

All women, from 30 years, who want an anti-ageing treatment for visibly younger skin that is hydrated, toned and smooth.

FORMULATION SECRET

As experts in the study of collagen for over 10 years, Helena Rubinstein laboratories have created a unique technology which acts on holding water inside the skin.

1. DERM-HYDRAFIX COMPLEX stimulates the synthesis of collagen structure molecules* to hold water deep inside the skin, leaving it densified.
2. COLLAGEN MICROSPHERES hold water inside the epidermis.

RESULTS

Hydration is immediately reactivated. Dehydration wrinkles are reduced and the skin is more radiant. Day after day, the skin appears denser, smoother and visibly younger.

Replumping
From 30 years

COLLAGENIST RE-PLUMP

After 12 years of Collagen expertise, HELENA RUBINSTEIN Laboratories spot the “shape-memory” collagens (XII and XVI), key-factor in the deformation and bounce back of the skin. Deteriorating with age; skin loses its original plump, age marks set deeply.

COLLAGENIST RE-PLUMP is the 1st cream which has a such technology able to stimulate the synthesis of these “shape memory” collagens for a double action, in-depth and on-surface.

ESSENTIAL POINTS TO REMEMBER

ANTI-WRINKLE & REPLUMPING CARE, which boosts now the production of the “shape-memory” collagens (XII, XVI)* and the 5 key structuring collagens (I, III, IV, V, VII)*, already targeted by Collagenist with pro-xfill, to rebound the skin and regain resilience.

WHO IS IT FOR?

Demanding women seeking anti-wrinkle care and want to regain a youthful plump, from age 30

FORMULATION SECRET

COLLAGENIST RE-PLUMP goes one step further for a double action:

- IN-DEPTH: COLLAGEN RESET COMPLEX to boost the production of the “shape-memory” collagens (XII, XVI)* in addition to the 5 key structuring collagens (I, III, IV, V, VII)*, already targeted by Collagenist with pro-xfill, to rebound the skin and regain resilience.

- ON-SURFACE: REPLUMPING HYALURONATE to rebound skin surface in association with HEPES, a cell renewal active to instantly replump skin and smooth wrinkles.

+ SPECIFIC ACTIVE INGREDIENTS:

DAY CREAM: SPF 15 + CARNOSINE to protect skin from UV rays and glycation to preserve the collagen capital's integrity* + LIGHT CAPTURING AGENTS to improve luminosity.

NIGHT CREAM: CARNOSINE to protect skin from glycation in order to preserve the collagen capital's integrity* + VITAMIN E + MALT & BLUEBERRY EXTRACTS for skin tonicity.

EYE ZOOM: LIGHT CAPTURING AGENTS to improve skin luminosity.

NEW IMMEDIATE RESULTS: SMOOTH, REPLUMP, ENLIGHT

DE-WRINKLED SKIN – REBOUNDED SURFACE:

Upon application, skin is smoothed, bouncy and luminous. Day after day wrinkles fade away; skin is re-plumped, radiant with youth.

IMPROVED TEXTURE, SAME SOPHISTICATED SCENT

DAY CREAM / NIGHT CREAM: improved texture for a bounce back effect to the touch. (new technology)

EYE ZOOM: improved texture to rebuild original tonicity of the eye zone. (new technology)

LIP ZOOM: our must have... Unchanged mythical texture for an instantly visible replumping effect on the lips. (unchanged technology)
